Docket No. CITI0206-US

REMARKS

Reconsideration of this application is respectfully requested in view of the foregoing amendment and the following remarks.

Claims 1-10 are currently pending.

Rejection of claim 1 under 35 U.S.C. 112, second paragraph

Claim 1 has been amended as recommended by the Examiner to correct the lack of antecedent basis for "the application project generator." Therefore, it is respectfully requested that the aforementioned rejection be withdrawn.

Rejection of claims 1-10 under 35 U.S.C. 102(e) as being anticipated by Puri (USP No. 6,064,982)

Independent claim 1 has been amended to include additional limitations not found in Puri. Therefore, it is respectfully submitted that the aforementioned rejection is moot in view of the amendment and that the pending claims 1-10 are neither disclosed or made obvious by the references of record.

Conclusion

For at least all of the above reasons, it is respectfully submitted that the present invention is neither disclosed nor suggested by the references of record, and the claims now pending patentably distinguish the present invention from the references of record. Accordingly, reconsideration and withdrawal of the outstanding rejections and an issuance of a Notice of Allowance are earnestly solicited upon the filing of a continuation.
